PROFESSIONAL SUMMARY

Product Design Manager with **12+ years leading UX strategy, design systems, and cross-functional product delivery** across large-scale enterprise platforms, cloud infrastructure, billing systems, and sustainability intelligence tools.

Known for building **scalable design governance**, driving **north-star experience visioning**, and improving **design maturity across engineering-heavy organisations**. I partner closely with Product, Engineering, and Business leaders to streamline delivery, reduce rework, and create measurable business impact.

SELECTED STRATEGIC OUTCOMES

- **Scaled design system governance across three major enterprise platforms**, reducing UI inconsistency by **20–30%** and improving development velocity.
- **Influenced multi-million-dollar product roadmaps through research synthesis, design ops, and executive storytelling across India, UK, and global teams.**
- **Improved cross-functional first-pass design approvals by 35%** by establishing 3-in-a-box governance (PM + Eng + Design).
- **Accelerated go-to-market cycles by 40%** for multi-geo customer-facing experiences (John Deere).
- **Increased prototype validation success rate from 60% → 85%** by operationalizing evidence-based design and scenario-driven research at Siemens.

CORE LEADERSHIP & STRATEGY SKILLS

- UX Strategy & North-Star Experience Visioning
- Design System Governance (Carbon, Pattern Libraries, Tokens)
- Enterprise UX for Cloud, Billing, Sustainability & Infrastructure
- Cross-Functional Alignment (PM, Engineering, Business, CX)
- Design Ops, Scalable Processes & Governance Models
- Team Leadership: Mentorship, Hiring, Coaching
- Executive Communication & Stakeholder Influence

CORE TECHNICAL & PRODUCT SKILLS

- Information Architecture & Interaction Models
- Complex Workflow & Dashboard Design
- Research Planning & Usability Testing
- Data Visualization for Enterprise Platforms
- Prototyping (Figma, FigJam, Miro, Framer)
- Journey Mapping, Service Blueprints, System Mapping
- Token-based Design Systems & Documentation

PROFESSIONAL EXPERIENCE

IBM – Power Systems Business Unit

Product Design Manager (July 2025 – Present)

- Lead cross-portfolio UX strategy for **10,000+ enterprise users** across HMC, PowerVC, firmware management, and infrastructure tooling.
- Scaled Carbon Design System implementation; introduced a shared pattern library that reduced **UI drift by 20%** and **developer rework by 10%**.
- Drove alignment using a 3-in-a-box model with PM & Engineering, improving **first-pass design approvals by 35%**.
- Managed and mentored **4 designers across 4 squads**, improving throughput, clarity of handoffs, and sprint predictability.
- Led roadmap workshops, design audits, and prioritization sessions aligning multi-team initiatives for the 2026–27 product vision.

BT Group (British Telecom)

Product Design Manager (Dec 2024 – June 2025)

- Directed UX strategy for global enterprise billing & provisioning platforms serving **500,000+ business users**.
- Conducted behavioural research identifying **10+ revenue-adjacent workflows**, uncovering upsell/retention opportunities.
- Reduced feature discovery cycles from **4 weeks → 2 weeks** using journey-opportunity mapping frameworks.
- Facilitated cross-functional co-creation workshops, achieving **95% alignment** on complex billing & configuration flows.
- Collaborated with UK and India engineering teams to standardise usability benchmarks for high-traffic enterprise journeys.

Siemens AG

Lead UX Strategist (Sept 2022 – Dec 2024)

- Designed scenario-driven sustainability intelligence dashboards, improving operational planning efficiency by **30%**.
- Introduced design-to-code workflow standards, reducing handoff time by **25%**.
- Increased prototype validation success from **60% → 85%** by designing research-to-strategy translation playbooks.
- Partnered with product, compliance, and engineering across 4 scrum teams to align experience patterns for SiGreen + Teamcenter integration.

John Deere – Asia Digital Experience

Lead Creative Director (Mar 2022 – Sept 2022)

- Directed digital strategy across four immersive initiatives, including **Virtual Tractor Showroom**, XR-based factory tour, and game-based onboarding.
- Improved cross-functional delivery efficiency by **~20%** through structured design & dev collaboration.
- Designed game-based onboarding to increase training completion consistency by **~30%**.
- Enabled remote sales by building the **Virtual Tractor Showroom** used across Asia, reducing physical demo dependency by **40%**.

Tata Consultancy Services (TCS)

UX Designer & Researcher (Aug 2019 – Mar 2022)

- Led **30+ MVP-focused** engagements using rapid prototyping and lean UX across banking, healthcare, and enterprise collaboration products.
- Contributed to UX for one of the **world's largest collaboration platforms** (Digital Transformation).
- Acted as service designer for an **AI-assisted platform capturing design thinking methodology** (TCS R&D).

Spangle Fountainhead Pvt. Ltd.

Designer (Apr 2012 – May 2017)

- Led end-to-end design projects for **20+ clients**, improving customer engagement metrics by **2x** through high-impact digital and branding work.

EDUCATION

Master of Design (M.Des) – IIT Hyderabad

Gold Medalist • Awarded 5+ design excellence awards

Bachelor of Architecture (B.Arch) – BIT Mesra

AWARDS

- **Adobe Achiever Award – Semifinalist (2018)**
- **IIT Hyderabad M.Des Gold Medalist (2019)**
- 5+ additional academic & industry awards
